KEY FEATURES

❖ Dual SIM Card Smoother Handoff

High connectivity with dual-SIM design for automatic network detection and handover. Unlimited connectivity across different carriers' 4G mobile networks. Support Individual call, Group call, All call and Broadcast call.

❖ Bluetooth/Wi-Fi/NFC(Optional)

Bluetooth and Wi-Fi provide flexible ways of using PTT service in various working environments. NFC brings more possibilities for extensible application, such as patrol system.

❖ Best-in-class Audio

The powerful 3W built-in speaker delivers loud, clear, and highly intelligible audio, ensuring reliable communication and an exceptional user experience.

❖ Precise Positioning

With high-precision positioning modules supporting GPS, BDS, and GLONASS, the radio can be located faster and more accurately, enabling efficient dispatch and coordination.

❖ Long-life Battery

The 4000mAh high-performance Li-ion battery delivers long-lasting power, easily supporting a full shift on a single charge. Support charging with a charging plug, power bank, PC or vehicle-mounted charger via USB Type-C port.

❖ Multiple Dispatching Services

Working with dispatching platform, T45 provides functions such as stun, kill, revive, Geo-fencing and track playback. Relevant applications can be developed to provide specific business solution.
